"The faculty, staff, administrators and fellow students at St. Augustine's all played a significant role in my development. I give significant credit to the Department of Military Science/ROTC Department for providing me with a strong foundation of communication skills, leadership skills and the ability to work with a team. These attributes were all key to my success after leaving St. Augustine's University and starting my career."

After receiving an ROTC commission as a Second Lieutenant at St. Augustine's University, Glenn spent several years as a Military Intelligence Officer in the U.S. Army. Upon exiting the military, Glenn joined Pfizer, Inc in 1991.

"St. Augustine's University opened her doors to me in 1982 and over the course of four years, she allowed me to learn, grow and prepare for my future. I'm eternally grateful for all that "St. Aug" did for me during my time on 1315 Oakwood Avenue."
