"Change"

## The Academic Achievers Program

*An Opportunity to  
Change Your  
Future...*

A TRiO Student Support Services Program

*An Opportunity to Change Your Future...*

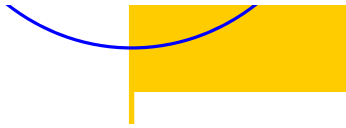

## **Enhanced Academic Courses**

Enrollment in our English Composition and Math (Intro to College Algebra and College Algebra) courses is one of our program requirements.

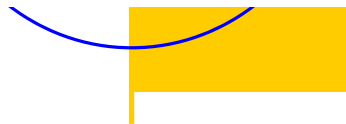

Smaller class size of our courses allow for more interaction between the instructor and student, while allowing us to customize and integrate all of the services we provide to you.

Our courses will help prepare you for tomorrow's future and learning environment.

## **Cultural Enrichment, Seminars & Workshops**

Our program will expand your view of the world and yourself through seminars, workshops, and cultural events (i.e. Concerts, Plays, Art Exhibits, and Graduate School tours).

**TRIO**  
STUDENT SUPPORT SERVICES

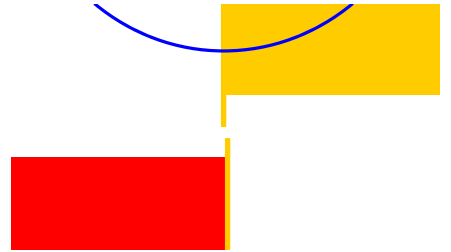

*All these services are provided exclusively to students of the  
**Academic Achievers Program**  
without charge*

## **Freshmen and Upperclassmen Advisors**

Our advisors will help keep you focused and on target by working with you on areas of study skills, personal effectiveness, class attendance, learning styles, career planning (including graduate and professional school), goal setting, course selection, and personal issues (i.e. financial, family, math anxiety, academic, medical, etc.).

## **Academic Advisement**

Tutorial Services and the Resource Laboratory are integrated with our delivery of services to you free of charge.

Our Program staff, faculty and tutors will work on developing your specific strengths and eliminating your weaknesses. The tutorial services will be tailored to your own specific goals and needs.

We also provide a wealth of tools to you via our Resource Laboratory: workbooks, self-help computer software, interactive CD's and DVD's, computers, assessment tools and more.
